

# 2026-2027 First Aid Training Dates for Schools

## Primary Schools

Primary schools are unique in the sense that they need to satisfy two elements of first aid training criteria. You require first aid training provision for your pupils with 12 hours paediatric first aid training covering a range of set topics detailed by Ofsted. Schools are also employers and therefore must satisfy first aid training criteria for Health & Safety Executive (HSE). This will give provision for adults such as members of staff, volunteers and contractors.

**If you are a Primary School and wish to cover both adults and paediatrics...**

**Book either:**

- Level 3 Combined Award in First Aid at Work & Paediatric First Aid (3 day course) or
- Level 3 Award in Paediatric First Aid (2 day course to cover paediatrics) and also Level 3 Award in Emergency First Aid at Work (1 day course to cover adults)

## Secondary Schools

**If you are a secondary school...**

**Book either:**

- Level 3 Combined Award in First Aid at Work & Paediatric First Aid (3 day course)
- Level 3 Award in First Aid at Work Requalifying (2 day course – if completed First Aid at Work within last 3 years)
- Level 3 Award in Emergency First Aid at Work (1 day course)

## Are you aware of Martyns Law?

You may have heard of a new piece of legislation called 'Martyns Law'. But what is it and do you need to follow it? 'Martyns Law' is named after Martyn Hett, who died in the 2017 Manchester Arena Attack. The Terrorism (Protection of Premises) Act 2025 aims to establish a set standard of security and first aid response within publicly accessible locations. If you have over 100 people on the premises - you are required to complete a 'preparedness plan' to prepare for a potential attack (stabbing spree, attack by vehicle etc). This may include providing trauma/bleed kits and training your members of staff to be able to co-ordinate and treat a mass casualty event and all the emergency first aid treatment that could arise in such an incident.

**All our first aid training courses ensures that all attendees are signed off as competent on CPR, an AED (Automated External Defibrillator) and using a Bleed Trauma Kit as standard.**
